

Developing and adapting clinical practice guidelines

Facilitators

Mercy Mulaku

Department of Pharmacology, Clinical Pharmacy and Pharmacy Practice, University of Nairobi

Jamlick Karumbi

Ministry of Health, Kenya

Solange Durão

Health Systems Research Unit, South African Medical Research Council / Cochrane Nutrition

Learning objectives

- To describe different methods of developing evidence informed guidelines
- To understand how to critically appraise guidelines using AGREE II tool
- To highlight challenges in developing evidence-informed guidelines

Brief description of content

This workshop will comprise a brief interactive lecture on evidence-informed guideline processes, including adaptation and adoption processes, and tools for appraising guidelines. This will be followed by a practical session where groups will appraise a guideline.

Readings or materials

Optional reading/background information:

1. McMaster Guideline Development Checklist
(<http://cebgrade.mcmaster.ca/guidelinechecklistonline.html>)
2. GRADE - Grading of Recommendations Assessment, Development and Evaluation
(<http://www.gradeworkinggroup.org/>)

3. GDT tool (www.guidelinedevelopment.org<<http://www.guidelinedevelopment.org>>
The ADAPTE Collaboration
(<http://www.g-i-n.net/working-groups/adaptation/introduction-g-i-n-adaptation-wg>)
4. AGREE II – Appraisal of Guidelines for Research and Evaluation
(<http://www.agreetrust.org/resource-centre/agree-ii/>)
5. IOM - Institute of Medicine
(<http://www.iom.edu/About-IOM.aspx>)
6. ‘Clinical Guidelines We Can Trust’
(<http://www.iom.edu/Reports/2011/ClinicalPractice-Guidelines-We-Can-Trust.aspx>)
